## Lesson One Story

1 Listen and read. Where does Tom come from? 01

1

**Libby** Hi, Kate! Hi, Ed! Did you have a good vacation in Florida?  
**Kate** Yes, thanks! How was your vacation?  
**Libby** It was great! We went to Mexico.

2

**Fin** Welcome back to the DSD Club, everyone! This is Tom. Tom is my cousin, and Libby's of course!  
**Tom** Hi, everyone!  
**Fin** Tom's from Canada, but his family lives here now.

3

**Libby** Tom, come and meet my other cousins!  
**Ed** Hi, Tom! I'm Ed. This is my sister, Kate. Shall we show you the club?  
**Tom** Great! Thanks!

4

**Kate** We do lots of things at the DSD Club.  
**Libby** Last year, we did a play. But Fin's car broke down and he had the costumes!  
**Ed** So, we had to wear these!

5

**Ed** This was our time capsule. We put in a magazine, a CD, a map of the town, and lots more things.  
**Libby** And this is the time we cleaned up the river! It was really dirty!

6

**Tom** You have a lot of fun at the DSD Club!  
**Ed** Yes, we do. It's really good.

7

**Ed** This is a good story!

**Kate** Yes! We learned first aid at the club. We were walking home afterwards when a man fell off his bike and we helped him.

8

**Ed** He was Jim Fisher - the best basketball player in town.

**Libby** He invited us to the game because we helped him.

**Tom** Lucky you! I love sports! I play ice hockey in Canada.

9

**Fin** What do you think of the Do Something Different Club, Tom?

**Tom** I think it's great! Can I join?

**Fin** Yes, of course! Here's your DSD T-shirt and cap!

10

**Fin** OK, everybody! Are you ready to do lots of different things this year?

**All** Yes, we are!

2 Listen and read. 12

## Island Adventure

Max was staying with his cousin Ryan by the sea. Every day, the boys went to the beach and played volleyball or went fishing. But one day, they stood on the sand and stared across the sea at a small island in the distance.

"I'd like to explore that island," said Max.

"Let's borrow my brother's boat and go there," said Ryan. "We'll be back before he finds out!"

The boys rowed to the island and left the boat on the sand. They climbed trees, swam in the river and found some caves. At last, they decided to go home, but when they went back to the boat, it wasn't there!

"What are we going to do?" asked Max. "Nobody knows we're here!"

"Let's make a fire," said Ryan. "Someone will see the smoke."

"How?" asked Max.

"We can hit two rocks together to make a fire. Come on!" But it was dark before the boys had a fire.

Suddenly, there was a splash of water. The boys stared across the sea. A dark shape was coming towards them.

"Run!" shouted Max.

"Hey!" said a voice. "Don't you want to go home?"

Ryan's brother was standing on the beach next to the missing boat.

"How did you find us?" asked Ryan in amazement.

"I saw the boat floating near the shore, so I swam out to get it. Then I saw your smoke."

"That was lucky," said Ryan.

"Yes," said Ryan's brother, as they rowed back, "but next time tell me before you take my boat out and always tie it to a tree!"

## Writing

1 Look at the story. What is it about?

2 Read.

## A story

There are lots of things to remember when we write a story.

We can start a new line when someone new speaks.

We use adverbs to describe how people say things and how people feel.

When the reader knows who's speaking, we don't have to put their name.

We put the speech and the punctuation inside the quotation marks.

## A Stormy Day at Sea

Harry was on a fishing trip with his dad. It was cloudy, but it wasn't raining, so they sailed far out from the shore. The sky suddenly went dark.

"I think there's going to be a storm," said Harry's dad.

"Should we go back?" said Harry *nervously*.

"It's too late!"

Harry felt the first drops of rain.

Lightning flashed and there was the sound of thunder. Waves splashed over them and the boat rocked from side to side.

"Hold on!" shouted Harry's dad above the sound of the wind.

The storm lasted an hour, but at last the weather changed and the sea was calm.

Harry was cold and wet but he was excited too. He felt like a real fisherman.

3 Read again and answer the questions.

1 How long does the storm last?

2 How does Harry feel after the storm has finished?

4 Write this dialog correctly.

It's a beautiful day! said Mandy. Do you want to go to the park?  
asked Olivia. I can't! said Mandy Why not? asked Olivia. I have  
to clean my room, said Mandy sadly. I'll help you! said Olivia. Oh  
thank you! said Mandy happily.

## Lesson One Story

1 Listen and read. Why doesn't Kate want to do the drawing?  15

1 In the library

**Libby** Where should we start?  
**Ed** Let's try this section!

2

**Tom** We don't have time to look at all these books!  
**Libby** If we look through them quickly, we'll get some ideas.

3

**Tom** This book is about sports around the world. How about drawing sports that are popular in different countries?

4

**Ed** Great idea! We could have baseball for the U.S.A.  
**Kate** Yes, and ice hockey for Canada. Or soccer for Brazil.  
**Libby** So, who is free this evening to draw our ideas?

5

**Ed** Well, if I had the time, I'd do it. But I have too much homework.

## Lesson Three Grammar 1

### 1 Listen and read. What sport are they talking about? 18

Leo What are we doing tomorrow?  
 Dad If the weather is good, we'll go paragliding.  
 Leo Cool! But I've never done it before. What will I do if I'm scared?  
 Dad You won't be scared! But, don't worry, if you don't like it, I won't take you again.

Leo Wow! This is amazing!

### 2 Listen and repeat. 19

#### Let's learn!

Use the **first conditional** to talk about things that might happen in the future.

If the weather **is** good, we'll **go** paragliding.

Look!

If you don't like it, I won't take you again.

I won't take you again **if** you don't like it.

Will you **come** for a walk if the weather **is** good?

Yes, I **will**.

No, I **won't**.

### 3 Read and match.

- 1 If I go shopping,  **b**
- 2 If they don't score any goals,
- 3 We'll buy tickets for the game
- 4 Will they have lessons
- 5 If she can't find a good instructor,

- a they won't win the game.
- b I'll buy some new sneakers.
- c she won't go rock climbing.
- d if they go skiing next year?
- e if our favorite team is playing.

### 4 Write sentences. Use the first conditional.

- 1 if / I / finish / my homework / I / visit / my friends  
If I finish my homework, I'll visit my friends.
- 2 you / not win / the race / if / you / not run / fast
- 3 we / go / to the park / if / it / not rain / tomorrow
- 4 if / she / go / to the party / she / buy / a new dress

2 Listen and repeat. 21

Let's learn!

Use the **second conditional** to talk about things that are unreal or unlikely to happen in the future.

If I **had** a camera, I'd **take** a picture.

If I **had** longer legs, I **wouldn't** play so badly.

Look!

If you **took** a picture, I'd **never speak** to you again.

I'd **never speak** to you again if you **took** a picture.

Would you **play** basketball if you **lived** in the U.S.A.?

Yes, I **would**.

No, I **wouldn't**.

Look!

'd = would

wouldn't = would not

3 Complete the sentences. Use the second conditional. **V** Irregular verb list

- If I found (find) a little spider in my house, I'd put (put) it outside.
- If I \_\_\_\_\_ (live) in the mountains, I \_\_\_\_\_ (go) skiing every weekend!
- Ben \_\_\_\_\_ (buy) a house for his parents if he \_\_\_\_\_ (have) a lot of money.
- I \_\_\_\_\_ (run) away if I \_\_\_\_\_ (see) a snake.

## Tanya Streeter

Tanya Streeter grew up on Grand Cayman Island in the middle of the Caribbean Sea. When she was a child, she loved being in the ocean and she spent as much time as possible in the water, snorkeling and studying fish and other sea life. She also liked diving deep down into the ocean to look for rocks and shells. This is how Tanya discovered a sport she could do.

The sport was called free-diving. Thousands of years ago, people dived deep into the oceans to catch fish and to look for pearls. They didn't have any diving equipment to help them breathe in those days. Today, this kind of diving has become a popular sport. People dive as deep as possible with no breathing equipment. They stay under the water for as long as they can before they have to breathe.

Tanya had one lesson in free-diving and found out that she was very talented. She had more lessons and then started to compete against people from all over the world. In 1998, she broke her first world record when she dived 113 meters down into the ocean. She broke many more records after that. Tanya trains for four or five hours every day in the gym and in the pool. But the freedom she feels when she's free-diving makes it worth all the hard work.

Tanya is also interested in looking after the environment and protecting wildlife. She has worked hard to tell the world about how dangerous pollution is for whales and dolphins and she is often on TV.

3 Read again and write *True* or *False*.

- 1 Tanya Streeter lived on an island. True
- 2 She disliked being in water when she was young. \_\_\_\_\_
- 3 Free-divers dive without equipment. \_\_\_\_\_
- 4 Tanya has only broken one record. \_\_\_\_\_
- 5 Tanya only ever trains in water. \_\_\_\_\_

1 Listen and read. Where is the reporter?  28

The festival has been going on for two days now and there are still thousands of people in the streets. I've been here since nine o'clock this morning and it's been great! The parade has already finished. There are food stalls everywhere and I've just eaten some delicious pancakes. I haven't seen any fireworks yet. They're going to be on later tonight.

2 Listen and repeat.  29

Let's learn!

Use the **present perfect** and **since** to talk about past actions after a certain time or date, e.g. 2:00 p.m., last Saturday, May. I've been here **since** nine o'clock this morning.

Use the **present perfect** and **for** to talk about past actions in a period of time, e.g. a week, two hours, a day. The festival has been going on **for** two days.

We use these time words with the present perfect:

The parade has **already** finished.  
I've **just** eaten some delicious pancakes.  
I haven't seen any fireworks **yet**.  
I've never been to a festival **before**.

Look! These time words are used in different places in the sentence.

3 Read and circle.

- I haven't been to a festival like this before / already.
- He hasn't cleaned his room *already* / yet, so he can't go out.
- The girls haven't worn traditional clothes *just* / before.
- Have you tried any of the food *just* / yet?
- We've *already* / yet seen the fireworks. They were great.

1 Listen and read. Where do Chip and Professor go? 30

2 Listen and repeat. 31

Let's learn!

Use the **simple past** to talk about actions that started and finished in the past. We often say when the action happened.  
I **went** there last year.

Use the **present perfect** to talk about actions in the past that are still important now. We often don't say when the action happened.  
I've **made** my costume.

3 Complete the sentences. Use the simple past or the present perfect. Irregular verb list

- 1 I went (go) to the festival yesterday. It was great!
- 2 I \_\_\_\_\_ (go) to New York three times in my life.

## Top Food Festivals

Going to festivals is always fun, but going to festivals that have delicious food is even better! Here are some of our favorite festivals around the world.

1 If you like food, you'll love the Kimchi Festival. This festival takes place in October every year in Gwangju in Korea. It lasts for five days but what does it celebrate? Kimchi, of course! Kimchi is a traditional dish made with onions, garlic, peppers, and other vegetables. It is very spicy, but it can be sweet, too. It is also very good for you! At the festival, visitors can taste different kinds of kimchi. There are also kimchi-making competitions.

2 The Gilroy Garlic Festival is one of the largest food festivals in the U.S.A. The festival takes place every year in Gilroy, California. It happens on the last weekend in July and it's one of the best garlic festivals in the world. So what do people do during the festival? Well, they eat lots of things made with garlic including garlic ice cream and garlic fries. There are also garlic cooking demonstrations, music, and dancing.

3 People celebrate the Moon Festival in different parts of Asia including China. The festival takes place every year in September or October. It lasts for three days and people celebrate the end of the summer harvest. So, what do people eat? The traditional food is moon cakes. These are round, sweet cakes and they are very popular. The cakes have different fillings. You can have ice cream, chocolate, or traditional red-bean paste. People also carry lanterns at the festival and watch traditional dancing.

## Writing

1 Look at Danny's letter. What type of letter is it?

- a) a thank you letter    b) an invitation    c) a letter of complaint

2 Read.

### A letter

We write letters to thank people, to invite them to an event, to complain and for many other reasons.

We write the address at the top, on the right.

We write the date under the address.

When we use two or more adjectives, we put them in this order: opinion, size, age, color.

We start a letter with "Dear" and the person's name.

First we say why we are writing. For example, if we are writing a thank you letter, we write what we are thanking them for.

If we include something with the letter, like a photo or present, we write why we've sent it.

We finish a letter with "Best wishes" or "From".

Monday August 2nd

Dear Joe

Thank you so much for inviting me to the Gilroy Garlic Festival. It was so interesting to see all the different food. My favorite part of the festival was the cooking demonstration when we learned how to make garlic ice cream! I made it for my mom and dad when I came back to Hong Kong. I also loved the garlic fries. They were delicious!

I really enjoyed being in California. It was great to stay in that **amazing, big, new** hotel. I would love to visit you in the U.S.A. again and see some more places.

I have sent you a picture I took at the garlic festival so we always remember it!

Best wishes,

## The Olympic Games

### The Early Games

The first Olympic Games were held at Olympia in Greece in 776 BC. There was one event. It was a 170 meter running race. Soon more events were introduced and people from other countries took part. Then the Romans invaded Greece and the new Roman Emperor stopped the Games.

Olympia

### The Olympic Flame

The Olympic flame is an ancient tradition. Today, the Olympic torch is lit at Olympia in Greece. Then it's taken by runners to the city where the Games are taking place. It is kept alight until the Games end.

### The First Modern Games

In 1896, a French man called Baron de Coubertin brought them back. He organized an international event with many of the original traditions. The first modern Olympic Games took place in Athens, Greece and fourteen countries took part.

Baron de Coubertin

### The Olympic Medals

There is a ceremony after each event. The three winners stand together. Their flags are raised. The national anthem of the winning country is played. Then they are given their medals: bronze, silver, and gold.

### The Olympic Rings

The Olympic flag was first flown at the 1920 Olympics. The five rings represent five world continents. Each ring is a different color: red, blue, green, yellow, and black. Every country has one of these colors in its flag.

### The Paralympic Games

The Paralympic Games first took place in Rome in 1960. They are for people with disabilities. Events include swimming and wheelchair basketball. The Paralympic Games is now a world-famous sporting event.

## Lesson Three Grammar 1

### 1 Listen and read. What has Professor invented? 38

### 2 Listen and repeat. 39

#### Let's learn!

Use **reported speech** to report what somebody else said.

**Direct speech**

"I need to take a shower."

**Reported speech**

He said he **needed** to take a shower.

In reported speech, we change the present to the past.

"I **need** to take a shower."

He said he **needed** to take a shower.

"We're **inventing** a new car."

They said they **were inventing** a new car.

### 3 Read and circle.

1 Julie is my best friend.

Karen said Julie is / was her best friend.

2 We want to stay at home.

The children said they want / wanted to stay at home.

3 I'm watching TV.

Helen said she was watching / watched TV.

4 We're going to a party.

The boys said they are / were going to a party.

### 4 What did they say? Ask and answer.

We're hungry.

My plane's late.

I'm traveling to New York.

I'm calling my sister in Washington.

What did Jack say?

He said his plane was late.

1 Listen and read. Who was coming to visit the school? 40

Last Monday, our teacher told us she had a surprise for us. She told us an airline pilot was coming to the school the next day. She said being a pilot was an exciting job. She said it was hard work, too. She said it was important to learn about other people's jobs so we could think about our future!

2 Listen and repeat. 41

Let's learn!

Use **said** and **told** with reported speech.

Our teacher **told us** she had a surprise for us.

She **said** that being a pilot was an exciting job.

When we use reported speech, we sometimes change the time words.

"An airline pilot is coming to the school **tomorrow**."

She told us an airline pilot was coming to the school **the next day**.

Direct speech

tonight, today

this week / month / year

now

tomorrow

next week / month / year

Reported speech

**that night, that day**

**that week / month / year**

**then**

**the next day**

**the next week / month / year**

3 Read and circle.

1 Tim **said** / **told** me he liked flying.

2 Our teacher **said** / **told** us we were going on a school trip.

3 Mom **said** / **told** it was raining.

4 Carla **said** / **told** her friend she was going to the party.

5 The boys **said** / **told** they were playing soccer.

4 Rewrite the sentences. Use reported speech.

I'm traveling to school by bus this week.

I'm going on a ride in a hot-air balloon tomorrow.

We're going on a school trip tomorrow.

My parents are buying a new car next week.

It's hot today.

Our friends are swimming now.

1 Harry said he was traveling to school by bus that week.

## Reading

1 Look at the pictures and the text. What are the three types of transportation?

2 Listen and read.  42

## Transportation around the world

The environment is different all around the world. Some people live in places where there is lots of snow, some people live in deserts and some people live near the water. People around the world have developed different kinds of transportation to help them travel around the environment they live in.

In desert areas, camels have traditionally been used as a form of transportation. They are ideal for traveling across the desert because they can survive for a week or more without water. Also, their ears and noses can shut tightly to stop sand going into them. They are known as “the ships of the desert” because of their ability to carry heavy loads for long distances. There isn't any other animal that could survive so long in the desert, carrying heavy things.

The city of Venice was built on a group of 118 islands. There are about 400 bridges which connect the islands. The only way to get around is on foot or on the water. There are no cars or trucks. The gondola is a traditional row boat and for centuries gondolas were the main form of transportation. Today, they are still popular with tourists but most local people travel by water buses or private boats.

Large areas in Asia have thick forests that are difficult to explore on foot. For thousands of years, humans have used elephants to help them go into these places. Elephants walk on their toes which means they can keep their balance even on wet mud. They are strong, so they can clear a path through plants and bushes. Today, people still use elephants to transport logs in areas where it's difficult for trucks to go.

3 Read again and correct the words in bold.

- 1 People used **horses** to travel across the desert. People used camels to travel across the desert.
- 2 Camels can survive for a **year** without water.
- 3 You can explore Venice **by car** and on the water.
- 4 Local people in Venice travel by water buses or by **private gondolas**.
- 5 Elephants help people in Asia clear paths in the **mountains**.
- 6 People also use elephants to transport **mud**.

	 <p>5 _____</p>	 <p>6 _____</p>	 <p>7 _____</p>	 <p>8 _____</p>

Listening

2 Listen. What does Mr. Jones do?  43

3 Listen again and write *True* or *False*.

- 1 Mr. Jones has been flying helicopters since he was 18. False
- 2 He sometimes takes people to the hospital. \_\_\_\_\_
- 3 He dislikes working with famous people. \_\_\_\_\_
- 4 He took an African prince to his house. \_\_\_\_\_
- 5 He hates being so high in the sky. \_\_\_\_\_
- 6 Some of his work starts very early. \_\_\_\_\_

Speaking

4 Ask and answer. Use the prompts or your own answers.

Which form of transportation would you like to travel on?	I'd like to travel on _____.	a camel / a gondola / an elephant / a helicopter / a hot-air balloon
Why?	Because it would be _____.	fun / amazing / exciting / fast / interesting
How do you normally travel to school?	I normally travel _____.	on foot / by car / by bus / by train / by bike
What other forms of transportation have you traveled on?	I've traveled on a _____.	boat / ship / plane / train / bike / horse / motorcycle

## Writing

1 Look at the diagram and text. What type of transportation is it?

2 Read.

## Hot-air Balloons

People have been flying hot-air balloons for over 200 years. But how do they work?

**Step 1:** To move the balloon up, the pilot releases gas. The burner heats it. Hot gas moves up, **so** the balloon lifts off the ground. The more gas that is released, the higher the balloon goes.

**Step 2:** To move the balloon down, the pilot pulls a rope. The rope opens the envelope and hot gas goes out of the balloon. When there is less hot gas in the balloon, the balloon moves down.

**Step 3:** The pilot can't turn the balloon. The balloon goes in the same direction as the wind.

**However,** the wind blows in different directions at different heights. If the pilot wants to move one way, he can go up or down until he finds a wind blowing in that direction.

## A process diagram

We can use process diagrams to show how something complicated works.

Write an introduction to explain what the subject is.

Draw a diagram to show something that is explained in the text. Use different diagrams to explain different things.

Write labels on the diagram to show what things are called.

Use **however** to give information that contrasts with what you've already written.

Use **so** to give the result of what you've already written.

3 Read again and answer the questions.

- 1 How does the pilot move the balloon up?      2 How does the pilot move the balloon down?

4 Complete the sentences with **so** or **However**.

- The milk from camels is full of lots of different vitamins that are good for our bodies, **so** this is a very healthy drink.
- Barges were built to move things around the country by river. \_\_\_\_\_, trucks are used more often now.
- Submarines can travel under the water or on top of the water. \_\_\_\_\_, they travel faster when they are underwater.
- Wind speed is very important when flying hot-air balloons, \_\_\_\_\_ the pilot must always check wind speeds and the weather before flying.

1 At the Museum of Inventions

**Kate** Look! Telephones were invented in 1876.  
**Ed** Well, look at this cell phone from the 1970s! It looks like a brick!

2

**Ed** Look at this car. It was made in the 1880s.  
**Libby** It only has three wheels!  
**Kate** Wow! Things have really changed.

3

**Ed** Look at this bike! How old is it?  
**Libby** It was made in the 1870s.  
**Tom** Look at the size of that front wheel!

4 Later ...

**Libby** We still need to come up with some ideas about the car of the future.  
**Tom** Why make a car? How about a bike?  
**Ed** Yes! Maybe it could fly to avoid all this traffic!

5

**Kate** It could be attached to a hot-air balloon and when you push on some kind of device, the balloon fills up.  
**Libby** Wow! That would be an achievement!

6

**Tom** Come on! We've still got to do our design! Think of that hot-air balloon ride!

## Lesson Three Grammar 1

### 1 Listen and read. Where does chewing gum come from? 48

In ancient times, people chewed gum from trees, but the gum had little flavor. In the 1860s, gum from the *chicle* tree was sent to America from Mexico. At first, it was used as rubber. Then, in the 1880s, it was made into chewing gum by the Fler brothers. It was covered with sugar and named *chiclets*.

The gum wasn't advertised so people didn't know about it. In the mid-1880s, factories were opened. Then chewing gum became popular. Today, many chewing gum flavors are made. However, chewing gum isn't always made from trees. Some companies use artificial substances instead.

### 2 Listen and repeat. 49

#### Let's learn!

Use **the passive** when you don't know the subject of a sentence (who does an action). Many chewing gum flavors **are made**. Or when the object of a sentence is more important than the subject. It **was made** by the Fler brothers.

Negative sentences:

The gum **wasn't advertised**.

Chewing gum **isn't always made** from trees.

Simple present passive = **is / are (not) + past participle**

Simple past passive = **was / were (not) + past participle**

### 3 Complete the sentences. Use the present passive.

1 Tea **isn't grown** (not grow) in England.

3 Jeans \_\_\_\_\_ (wear) by a lot of people.

5 A lot of pizza \_\_\_\_\_ (eat) in the U.S.A.

2 Magazines \_\_\_\_\_ (not sell) here.

4 Thousands of emails \_\_\_\_\_ (send) every day.

6 These T-shirts \_\_\_\_\_ (not make) in China.

### 4 Write the sentences. Use the past passive.

1 the first chocolate bar / not eat / in Europe

The first chocolate bar wasn't eaten in Europe.

2 televisions / invent / in the 20th century

3 our school / not build / this year

4 the first video games / make / in the 1970s

5 the boy / drive / to the hospital

1 Listen and read. Why can't Chip work? 50

2 Listen and repeat. 51

Let's learn!

Use **the passive** with the **present progressive**.

My computer **is being repaired**.

The floor **isn't being cleaned**.

Present progressive passive =

**is / are (not) + being + past participle**

3 Read and circle.

- 1 My jeans *are washing* / *are being washed* at the moment.
- 2 The boys *are cleaning* / *being cleaned* the car.
- 3 A new train station *is building* / *is being built* in our town.
- 4 Tom *is using* / *being used* the computer at the moment.
- 5 The class *is teaching* / *is being taught* the passive tense.

4 Talk about the pictures. Irregular verb list

a hospital / build  
a motorcycle / fix  
a rocket / launch  
some jeans / wash  
a house / paint  
a car / wash

A hospital is being built.

It's Picture 3.

**Reading**

- 1 Look at the text. Find the names of four types of pens.
- 2 Listen and read.  52

## The History of the Pen

**The Prehistoric World**  
 People used stones to draw pictures in caves. They also used sharp objects or bones to make marks on clay.

**The Ancient World**  
 Ancient people developed writing systems. They needed something better to write with. The Egyptians invented the first paper. It was called *papyrus*. It was made from plants called reeds.  
 In China, people used brushes made from animal hair to write with. In other places, pens were made from reeds. One end of the hollow reed was cut into a point, or a nib. The pen was filled with writing liquid.  
 People used liquid from plants to write with. Then the Chinese invented black ink. It was made from soot from fire, oil, and animal bones. Today this is made with different things.

**In the 7th century**  
 People used quill pens. Quill pens were made from the hollow feathers of birds. They worked better than reed pens because they were softer and you could clean them and use them more often.

**In the 10th century**  
 The first fountain pen was made. The pen held ink in a reservoir inside it and the ink traveled down to the nib. However, sometimes drops of ink came out of the pen and ruined the paper.

**1938**  
 László Bíró invented the ballpoint pen. It had a tiny ball in its tip which rotated as it moved along the paper and picked up ink from a cartridge inside. It worked well because it was clean to use.

**1965**  
 The Space Pen was invented. The Space Pen could write underwater, upside down, in extreme temperatures and at zero gravity! Astronauts used them in space. The Space Pen can do everything. But who knows what pens will be invented in the future!

**3 Read again and write True or False.**

- |   |             |
|---|-------------|
| 1 People used stones to draw pictures in caves. | <u>True</u> |
| 2 Reed pens were made from bones.               | _____       |
| 3 Black ink was invented in China.              | _____       |
| 4 Quill pens were made from plants.             | _____       |
| 5 The first ballpoint pen had no ink.           | _____       |
| 6 Space Pens only work in space.                | _____       |

Words in context

1 Find the words in the text to match the definitions.

- 1 cartridge *noun* a container that holds things like ink for printing or films for a camera
- 2 \_\_\_\_\_ *noun* heavy earth that is soft when wet and becomes hard when baked.
- 3 \_\_\_\_\_ *verb* to go around and around
- 4 \_\_\_\_\_ *adj* with a hole or empty space inside

Use *soon after* or *later* to say what happens next.

Use *during* to show what happened over a period of time.

Finish by repeating the person's most important achievement.

## A biography

We write a biography to talk about the main events of someone's life.

### Louis Braille (1809–1852)

Louis Braille was born in France in 1809. In 1812, he had an accident and went blind. When he was ten, he went to a school for blind children.

**To begin with**, Louis was very unhappy. The school had books with raised letters made with metal, which blind people could feel with their fingers. But it was very difficult to read and there were only 14 books in the school.

**Soon after**, a man called Charles Barbier visited the school. He showed the boys his invention, called "night writing". It was a code of 12 raised dots. It was also very difficult to read, but it gave Louis an idea!

**During** the next three years, Louis invented a new code, which only used six raised dots. Today we call it Braille. It was very simple and easy to use. **Later**, Louis became a teacher for blind people. He also translated many books into Braille.

Now, Braille is used in almost every language all over the world!

3 Read again and answer the questions.

- 1 How many special books for blind people did the school have?
- 2 What job did Louis do when he finished school?

4 Read and circle.

- 1 Sneakers were invented *to begin with* / during the 1960s.
- 2 Cell phones were first sold in the 1970s. *To begin with*, / *Soon after*, they were as big as bricks.
- 3 Black and white TVs were becoming popular. *Soon after*, / *During* color TVs were invented.
- 4 The first plane flight was in 1903. *Soon after*, / *During* airplanes became popular.

1

**Fin** This looks good! Tell me about it.  
**Kate** Well, it's a bike that can fly. When you pedal backwards, air will be pushed into the balloon and it will lift into the air.

2

**Ed** And when you want to land, you push this device, and the air will come out.  
**Fin** So, it avoids traffic and it's good for the environment, too!

3 A few days later ...

**Fin** Look! The competition has been judged and I have a letter from Mr. Martin.

4

**Fin** Mr. Martin says: "Thank you for your fantastic designs. They were all very imaginative."

5

**Tom** Did we win the trip in the hot-air balloon?  
**Fin** I'm afraid not. A group from another club won first prize. But your flying bike came in second! And that means ...

## COMPUTERS - FUN FACTS

## Who invented the computer?

In 1833, a British inventor, Charles Babbage made plans for a math machine. It was the beginning of the first computer. Babbage spent 37 years trying to build his machine, but there were many complications and he died before he finished it. The first computer was finally created in 1946. It was called The Small-Scale Experimental Machine.

## Why is a mouse called a mouse?

The first computer mouse was invented by Douglas Engelbart in around 1964. It was a little wooden box on wheels that could move an on-screen cursor. It was called a mouse because the wire that connected it to the computer looked like a tail. Luckily, a computer mouse is much smaller now and it is usually made of plastic. However, it still looks like the first mouse that was made.

## When did the World Wide Web begin?

The World Wide Web (WWW) was invented by Tim Berners-Lee and Robert Cailliau in 1990. It was immediately successful and in four years, 50 million people were using it! It is difficult to imagine life without it as the World Wide Web has changed the world!

## How many computers are there in the world today?

In the early 1940s, the president of the computer company IBM said, "I think there is a world market for about five computers." However, today there are more than one billion computers in the world! Computers became much more important in the world than anyone ever expected!

## How big was the first computer?

The first computer was huge. It filled a large room and weighed the same as six adult male elephants! Luckily, as technology has improved, computers have gotten smaller.

**Writing**

- 1 Look at the research report. What is it about?
- 2 Read.

**A research report**

We write research reports to show what we have discovered through research.

First, we write an introduction explaining what the research report is about.

We can write headings for each section of the report.

We can use questions as headings when we want to give the answers in a section of the report.

We can give quotes from people who know a lot about the topic.

We can put facts or figures in the report, but we must check that they are true!

## My research project by Jen Thomas

For my research project, I wanted to find out how the internet works. Everyone around the world can use the internet. But how is this possible?

### Internet cables

Computers around the world are connected to the World Wide Web by cables that go to every country and bring them the internet.

### Where are the cables?

The cables need to reach all the countries, but there are huge oceans in between the countries. The cables lie on the bottom of the ocean!

### Do the cables ever break?

Yes, the cables break quite often, but the internet doesn't stop working. The scientist, Brad Jennings, explains why. "There are lots of cables, so when one cable breaks, it isn't a problem. It's only when they all break at the same time that the internet stops working."

### Why do the cables break?

They can break because of earthquakes, fishing nets, or even shark bites! Normally, a cable breaks every year at some point and needs to be repaired.

Chitty Chitty  
Bang Bang

**Chitty Chitty Bang Bang** was written by Ian Fleming. He wrote it as a book, but it has also been made into a movie and a musical stage show.

Commander Potts is an inventor. He lives with his two children, Jeremy and Jemima. The Commander invents many interesting things. One day, he invents and sells some amazing candy that makes a whistling sound. The Commander buys a very old car with the money and fixes it. The family love the car and give it a name. They call it Chitty Chitty Bang Bang because of the noises it makes.

The car has many levers and buttons and even Commander Potts doesn't know what they are all for. Then one day, the family are driving to the beach. There are lots of cars on the road and there is a long traffic jam. Suddenly, one of Chitty Chitty Bang Bang's levers starts to flash. It says the word "Pull". The Commander pulls the lever and two wings slide out from the sides of the car. Chitty takes off like an airplane and flies over the cars in front!

At last, the family arrive at the beach and have a picnic. But then, they fall asleep and the tide comes in. They wake up and see water all around them. They get in the car and a different lever flashes. The Commander pulls it and Chitty turns into a boat. They sail across the ocean to France where they have many more adventures.

**Based on a story by Ian Fleming**

## Explorers for a day!

### Lesson One Story

1 Listen and read. Why do the children decide to go into the cave? 65

1

**Fin** Today you're all explorers! Ten flags are marked on the map. You have three hours to find them. At the end, the group with the most flags wins!

2

**Fin** There is an adult with each group to keep you safe! Here is a compass for each group. Good luck! I'll wait for you here.

3

**Libby** Right. Let's try and find this flag first. We just have to walk north. Who has the compass?

**Ed** I do! It's this way!

4 One hour later ...

**Kate** We've been walking for a long time. Where's the flag?

**Libby** Are you sure we're going north, Ed?

**Ed** North? I thought you said south!

5 Later ...

**Libby** I think this is the river which is on the map. We can find our way now.

**Kate** Oh no! It's starting to rain.

**Tom** And it looks like a storm. We need to find shelter.

6

**Ed** How about this cave?

**Libby** Are you sure? It's very dark.

**Tom** Come on! It's fine!

## Reading

- 1 Look at the pictures. When do you think each ship sailed?
- 2 Listen and read.  72

## Famous Shipwrecks

Sailing can be dangerous and many ships and boats have sunk. There are many ships lying at the bottom of oceans all over the world. Studying shipwrecks is important to historians because they contain clues about what life was like in the past.

The *Atocha* was a Spanish ship that sank in a terrible hurricane in 1622. It was carrying gold, silver, and jewels. People were sent to get the treasure because it was very valuable. However, the ship was lying deep under the ocean. At the time, it was very difficult to dive down so far. Then, in the same year, another hurricane destroyed the shipwreck and the treasure was lost. The treasure stayed beneath the sea for over 360 years. In 1969, a man named Mel Fisher started to search for the treasure. This time, divers had better equipment. After 16 years, he found parts of the wreck and most of the treasure. He put the treasure in a museum in Florida, where you can see it now.

The *Titanic* was a passenger ship built in 1911. It was called the "unsinkable ship" because of its amazing design. No one believed it could sink. On April 10th 1912, the *Titanic* left England for New York City on its first voyage. Four days later, the ship hit an iceberg in the Atlantic Ocean. The ship sank and over 1,000 people drowned. For a long time, underwater explorers searched for the shipwreck. In 1985, they discovered it. The wreck was broken and it was impossible to move, but they were able to bring back thousands of items, such as clothes and letters. These items have helped historians understand more about the people who sailed on the *Titanic*.

### 3 Read again and write *Atocha* or *Titanic*.

### A personalized text

We can use our imagination to write about something we'd like to do in the future.

We can use lots of different adjectives to make our descriptions more interesting.

Use *such as*, *for example*, *like*, and *for instance* to give examples.

When we are imagining what a situation might be like, we use *would*. For facts or things we know are true, we use the simple present.

We finish by giving a final reason for our choice.

## Being an explorer

by Fred Smith

I'd love to be an underwater explorer because I love seeing new places and being in the water. I love seeing amazing things **such as** colorful fish.

I think it **would** be fantastic to look at the bottom of the ocean.

Underwater explorers do different things. Some explorers are scientists. They do scientific research, **for example**, looking at underwater volcanoes. They also make maps of different areas. Other underwater explorers are historians. They examine shipwrecks and the objects inside them **like** treasure and ancient possessions. They learn lots of things about the past, **for instance**, how people used to live. Some underwater explorers are environmentalists. They study how animals live beneath the ocean and check for pollution.

I think all of these things would be really interesting to do. That's why I'd love to be an underwater explorer!

### 1 Listen and read. When was the *Mary Celeste* found? 🎧 78

The *Mary Celeste* was a mysterious ship. In November 1872, the ship left New York for Italy. The captain, his wife, their daughter, and the ship's crew were on board. In December 1872, a passing ship found the *Mary Celeste* floating in the ocean. After the crew had climbed onto the ship they saw there was no one there! They explored the ship and discovered that someone had taken the lifeboat and a few other things. But the ship wasn't damaged. There hadn't been a storm. What happened to the people? No one knows! It's a mystery!

### 2 Listen and repeat. 🎧 79

#### Let's learn!

Use the **past perfect** for something that happened in the past before another thing happened in the past. After they **had climbed** onto the ship, they saw there was no one there.

Past perfect = **had (not) + past participle**

Look! 'd = had

Use the **past perfect** for the earlier thing that happened and the **simple past** for the thing that happened after that.

They **discovered** that someone **had taken** the lifeboat.

### 3 Complete the sentences. Use the simple past or the past perfect. 📖 Irregular verb list

## The Nazca Lines

In this interview, historian Michael Jones talks about the mystery of the Nazca Lines. Michael Jones has studied the Nazca lines for many years.

1

The Nazca were an ancient people that lived in Peru, in South America, about 2,000 years ago. The people are well-known for creating the Nazca lines. The Nazca lines are famous all over the world and they can still be seen clearly and easily today.

2

They are giant sketches which the Nazca people drew in the desert in the Nazca Valley. Some of the drawings are just long, straight lines.

3

No, they also drew birds, animals, and figures. For example, there's a monkey, a giant condor, which is a type of bird, and a huge spider. There's also a human which has a big, round head and is known as "the astronaut." We don't know why they drew these objects.

4

The desert in the Nazca Valley is made of dark red stones and soil. Underneath there is a lighter, yellow soil. The Nazca cleared away the top soil to show the lighter color. The area has a very dry climate and there is little wind. Archeologists say this is why the drawings were able to survive.

5

We can't be sure, but it probably took hundreds of years to make so many drawings and probably hundreds or even thousands of people to make them.

6

The drawings were first discovered in 1927, when a plane was flying across this part of the desert. What is incredible is that because the drawings are so huge, you can only really see them from the air. Today, people travel in small planes and look down on them, but how did the Nazca people see what they were making? It's a mystery!

### A tourist information brochure

We write a tourist information brochure to give information about important places to visit in our country.

In a tourist information brochure, we include all the important information:

- when it's open
- how much it costs
- where it is

We explain what the tourist attraction is, and why it is important.

We use *It is thought ...* and *Historians think ...* to explain the history of a place.

We finish a tourist information brochure by giving an exciting reason why tourists should visit.

## Visit Stonehenge!

### Opening times

9:30 a.m. – 4:00 p.m. (winter)  
9:00 a.m. – 7:00 p.m. (summer)

### Prices

£6.40 for adults  
£3.20 for children

### Where is it?

Salisbury, England

### What is Stonehenge?

Stonehenge is a huge and mysterious circle of stones in the south of England. No one is sure who built Stonehenge or why, but **it is thought** that people began building it around 5,000 years ago. Some **historians think** that the circle was built for festivals. Other historians think that it is a kind of ancient calendar. This is because of the way the sun falls on different stones at different times of the year.

### Why visit?

Stonehenge is an incredible sight. It is amazing because of the size of the stones. The tallest stone is more than six meters high. The stones came from a long way away. People didn't have transportation then so how did they move them? No one really knows! Come and visit and see what you think!

## Robinson Crusoe

by Daniel Defoe

Robinson Crusoe was sailing to Africa when his ship hit some rocks in a terrible storm. He swam to the shore and discovered he was the only survivor. The next day he swam out to his shipwreck. It was on the rocks near the island. He brought back tools and other useful supplies. Then he looked for a place to build a shelter.

I walked to the top of the highest hill and looked down. I was very unhappy, because I saw then that I was on an island. There were two smaller islands a few miles away, and after that, only the ocean. Just the ocean, for mile after mile after mile. I was all alone.

After a time, I found a little cave in the side of the hill. In front of it, there was a good place to make a home. I used the ship's sails, rope, and pieces of wood, and after a lot of hard work I had a very fine tent. The cave at the back of my tent was a good place to keep my food, and so I called it my "kitchen". That night, I went to sleep in my new home.

The next day, I thought about the possible dangers on the island. Were there wild animals on my island? I didn't know, but I was very afraid, so I decided to build a very strong fence. I cut down young trees and put them in the ground, in a half-circle around the front of my tent. I used many of the ship's ropes, too, and in the end my fence was as strong as a stone wall. I felt safer when I'd finished the fence. No one could get over it, through it, or around it.

## IF YOU FIND YOURSELF ON A DESERT ISLAND, HOW DO YOU SURVIVE?

### HERE ARE SOME TIPS!

#### DRINKING

- You need to find fresh water! Walk along the beach until you find a river. Follow it away from the ocean and you will usually find faster moving water that you can drink.

#### EATING

- Next you need to eat. You will find plants around the river. There will also be fish. Make a fishing line **so that** you can catch them. You can use thin pieces of wood and thread from your clothes.

#### SLEEPING

- And what about somewhere to sleep? You will need a shelter. Use rocks, leaves, and parts of a tree to build a small home.

#### KEEPING WARM

- Make a fire **in order to** stay warm. You can also use it for cooking and for keeping wild animals away.

#### GETTING RESCUED

- You will want to be rescued! If you put plants on your fire, they will make a lot of smoke. Someone might see it and come and find you!

## Extensive reading: fiction

1 Look at the pictures. What do you think the story is about?

2 Read.

Over one hundred years ago, the Ingalls family lived in Wisconsin, a state in the U.S.A. There was Pa, Ma, Mary, Laura, Baby Carrie, and their dog, Jack. One day, they traveled west and built a little house on the prairie. Life was exciting, but dangerous, too, and one night, Laura heard a wolf howling ...

Laura got out of bed. Pa turned his head and saw her standing there.

"Do you want to see them, Laura?" he asked, softly.

Without saying anything Laura walked over to Pa. He put down his gun and lifted her up to the window.

There in the light of the moon sat a half circle of wolves. They looked at Laura, and she looked at them. The biggest was taller than Laura. His coat was gray and his eyes were shining and green. Laura looked and looked at that wolf.

"He's awfully big," Laura said into Pa's ear.

"Yes, and see how his coat shines," Pa said into her hair. "They're in a circle around the house."

Laura went with him to the other window. There she saw the other half of the circle of wolves. The big wolf lifted his nose to the sky and howled. All the other wolves answered him. The noise filled the wide prairie.

"Now go back to bed, Laura," Pa said. "Go to sleep. Jack and I will take care of you all."

So Laura went back to bed. She heard the wolves howling and trying to smell them through the cracks in the walls of the house. It was a long time before she fell asleep.

## Reading

- 1 Look at the text. How many people in the world speak Arabic?  
 2 Listen and read.  102

## Languages of the world

**Q** How many languages are there in the world?

**A** There are around 7,000 languages spoken in the world. Some of these languages have almost disappeared and only have a few speakers left, but others are still spoken by millions of people! There are many languages which were widely spoken in the past and which no one speaks anymore, for example, Latin or Ancient Greek.

**Q** What's the most widely spoken language in the world?

**A** Mandarin is the most widely spoken language in the world. It's the official language of China and about 900 million people living there speak it as their native language. Mandarin is also spoken in other Asian countries such as Singapore, Malaysia, Indonesia, and Thailand. So, altogether, Mandarin is spoken by almost 15% of the world's population!

**Q** What are the next most widely spoken languages in the world?

**A** Hindi, English, and Spanish are each spoken by over 300 million native speakers. Portuguese, Russian, Arabic, Japanese, German, and French each have 100–300 million speakers. That's a lot of people!

**Q** More people speak Chinese than English, so why is English the international language?

**A** The reason is perhaps because English is spoken on so many different continents. People in the U.S.A., the U.K., Australia, Canada, Ireland, and New Zealand speak English as their first language. It's also recognized as an official language in more than 70 countries around the world!

**Q** Why do some languages disappear?

**A** International companies often have businesses in different countries. This is one reason why young people in these countries may learn the more dominant languages of the world and stop learning their own languages.

**Q** How many languages will there be in the future?

**A** Some scientists predict that half of the languages spoken in the world today will disappear by the end of the century, as young people stop learning the language of the country they come from.

## Writing

- 1 Look at the advertisement. What is it for?
- 2 Read.

### An advertisement

We write advertisements to give information about something and make people interested in it.

Think about your layout. Use different sized headings and different colors to make it look more attractive.

Include important and practical information. People need to know what you are offering.

Use persuasive language and lots of positive adjectives.

We can use a rhyme at the end so people remember our advertisement.

### Dreaming in a spaceship

I dreamed I was in a spaceship,  
Flying through the stars.  
I passed a comet on the way,  
As I headed off to Mars.

The ground was very bumpy,  
There were moon rocks all around.  
Everything was very quiet  
And I couldn't hear a sound.

I stared at the scene before me.  
It was such a beautiful view.  
A satellite spun around and around,  
But on and on I flew.

I walked around for a while,  
But there wasn't much to do.  
I found a flag and a rock or two,  
And then admired the view.

The stars were as bright as diamonds  
In the darkness of the night.  
The moon shone like a precious pearl.  
It was an amazing sight!

The next thing, it was morning.  
I was safe and cozy in bed.  
I told my mom about my trip.  
"What a nice dream," she said.

I flew through the rings of Saturn,  
I circled the Earth below.  
Neptune shone with a dark, blue light  
And Venus seemed to glow.

But I knew there was something real  
About my space trip to the skies,  
For I found a moon rock in my pocket  
And there was stardust in my eyes.

My spaceship landed on the moon.  
It was wonderful for me!  
So I climbed onto the surface,  
To see what I could see.

**A poem**

There are lots of ways of making poems sound more beautiful and interesting.

We use similes to make writing more interesting and create strong images in the reader's mind.

A simile is the comparison of two things.

We use *like ...* or *as ... as* to compare two things.

We sometimes write different verses. There are four verses in this poem.

We usually start each new line with a capital letter.

We sometimes use rhyming words. In this poem, the rhyming words are in the second and fourth lines of each verse.

Avoid forced rhyme – using words that rhyme but don't make sense.

## TRAVEL BLOG: My year around the world

I'm Sarah, I'm 12 years old and this is my blog! We left Canada in January when Mom and Dad decided they wanted us to give up our lives in Canada, and go traveling for a year! They said they wanted us to learn about lots of different things around the world by seeing them all! It was the start of a big adventure!

On Day 1, we flew to Delhi, in India. What an amazing place! It was so busy and noisy. There were hundreds of rickshaws, motorcycles, and cars driving around and people shouting and rushing everywhere. We spent three days in Delhi and then went by train all the way down the coast to Kerala. The journey took four days!

We stopped in a fantastic town called Varkala. There were a lot of palm trees on the beach, white sand, and great sunshine. We went on an elephant ride! We traveled through the jungle and across rivers. It was so exciting! It was quite scary being so high up on an elephant, but it was still great fun. Unfortunately, my brother Dan hated it because he doesn't like heights!

After Varkala, we spent four days on a house boat traveling down a river. We stopped once at a village and met a local family who invited us to eat with them. The food was traditional food from Kerala. It was spicy and full of different flavors. After that, the local children taught us a traditional Indian board game called Carroms.

We're going to spend a few days more in Kerala and then we're going to Sri Lanka. I'll write an update on my blog again when I arrive there!

**Writing**

**1** Look at the essay. What is it about?

**2** Read.

**An opinion essay**

We can write an essay to discuss the advantages and disadvantages of something. We divide the essay into four paragraphs.

Paragraph 1: the introduction (where we introduce the topic)

Paragraph 2: the advantages (where we explain the good things about the topic)

Paragraph 3: the disadvantages (where we explain the bad things about the topic)

Paragraph 4: the conclusion (where we make our final decision about our opinion)

## Tourism

Every year, millions of people travel around the world to visit the islands in the Caribbean sea. But is this a good thing?

There are some very good things about tourism in the Caribbean islands. Firstly, it is good for people to see the culture and history of other places. Secondly, tourists spend money in hotels, restaurants, and stores. This is good for local people. Thirdly, tourism often means that better roads and airports are built, which is also good for local people.

However, not everything about tourism in the Caribbean islands is good. Firstly, tourists can make peaceful places busy and noisy because there are more people, cars, and planes than before. Secondly, tourism can destroy wildlife because hotels are sometimes built on their natural habitat. Finally, many foreign businesses own the hotels, stores, and restaurants, so sometimes big companies get all the money, not the local people.

It seems to me that although tourism can be good for islands in the Caribbean, it can have bad sides too. In my opinion, it's always important for tourists to respect the local culture.

**3** Read again and answer the questions.

### THE DIARY OF AN ASTRONAUT

**October 16th**

**06.00**

I got up when I heard the wake-up call. We sleep in sleeping bags in compartments and strap ourselves in. There's no gravity in space so if something isn't tied down, it floats away!

**06.15**

I had bread and jelly for breakfast. We have different types of food in space. We have food that's ready to eat, like cookies. We have food that you add water to, like soup. We also have food from cans.

**06.30**

We had our daily planning conference with Mission Control on Earth and found out what work we had to do.

**08.00**

I went on a space walk to check for damage to the space station. First, I put on my space suit. Space suits protect us from danger and provide us with the oxygen we need to breathe. I didn't find any damage today.

**13.00**

There was soup and bread for lunch followed by canned fruit and cookies. After that, we cleaned up and had a rest.

**14.00**

We used the space shuttle's robotic arms to pull in a damaged satellite. We successfully repaired it and will return it to orbit tomorrow.

**18.30**

I went on the exercise machines. I do two hours of exercise every day. On Earth, we use our bones and muscles to move against the force of gravity. In space, there is no gravity, so our bodies don't need to work so hard. We can become very weak. That's why exercise is so important in space.

**20:30**

After dinner, I listened to music, wrote my diary and looked at the amazing views. I'm lucky to be an astronaut. It's great!

**3** Read again. Find six foods that astronauts can eat in space.

**4** Read again and answer.

- 1 Where does the astronaut sleep at night?
- 2 Who does the astronaut speak to every morning on Earth?
- 3 Why did the astronaut go on a spacewalk?
- 4 How did they pull in the satellite?
- 5 How much exercise does the astronaut do every day?
- 6 What does the astronaut do during free time?

**5** Discuss.

- 1 Do you think exploring space is a good idea? Why (not)?
- 2 Would you like to be an astronaut? Why (not)?

**6** Plan your day in space.

6:00 I wake up and get out of my sleeping bag. I have canned fruit, bread, and jelly for breakfast. 7:00 I talk to Mission Control on Earth. They tell me I have to do a spacewalk today ...
